

Reading Skills Assessment Tool

Have the child read and pronounce correctly each letter or word starting in the first box with "A", the first 8 "words" are letters, then progress from left to right. When your child misses 5 words in a row, or is frustrated, then stop. Next, add the number of words using the number in brackets to help you, which keeps a tally of how many words your child has read up to that row.

Example: If the child reads all the way up to "quality" but misses the next 5 or 6 words then they would have a score of 44. A score of 44 = 4.4 grade level or 4th grade and fourth month.

A B O P E R T H [8]	to see cat milk red tree big book [16]	was city eat him animal letter then himself [24]
how deep spell between weather lip block awake [32]	size board felt chin tray approve cliff stalk [40]	split huge plot quality escape urge collapse grieve [48]
